ABSTRACT (Max 250 words (excluding title, author information and references))

Abstract title: short, informative title, not exceeding 2 lines

Author#11, Author#nn

1 Institute#1, City#1, Country#1

2 Institute#n, City#n, Country#n

Introduction:

Describe why you started this research and why it is important.

Give a short description of the background of your research; the motivation, specific question or hypothesis you addressed. Keep it brief by directly describing only your main question.

Methods:

Briefly describe what methods you used for your research.

Results:

What did your research show?

List the most important results. Keep it short by addressing only those results that are relevant to answering your main question.

Conclusion:

What did you conclude based on the results?

In this section you summarize your research conclusions, the implications, or applications to practice. Keep it brief by addressing only the answer to your main question.
